Old Bolingbroke.

Anti Social Behaviour.

A householder in our village had someone knock loudly on their windows late at night.

Unfortunately the householder did not see anyone.

This was the second time this had happened this month .It was called in on a 101.

Police attended but nobody found in the area.

Scams.

The Police are still receiving an alarming amount of calls in relation to scams. Some popular ones at the moment are hoax calls from BT stating that they owe the house owner a rebate and then ask for their bank details to refund them.

The second most popular at the moment is a fake call from either the Police or the Bank claiming there is fraud on your account . They tell you they need to open you a new account and that you must transfer all your money to this other account.
